

CONNECT MAGENTO WITH ACUMATICA ERP

Kensium Solutions offers a connector that links your Magento eCommerce platform with Acumatica Cloud ERP. Aligning Magento and Acumatica allows your eCommerce website to leverage existing customers, products, inventories, sales, and shipping data stored within Acumatica.

WHY INTEGRATE ECOMMERCE AND ERP?

- Leverage customer attributes to better serve your customer base.
- Ship to multiple customer addresses tied to one customer profile.
- Map Magento inventory sources to Acumatica warehouses for accurate inventory availability.
- Reduce payment issues by passing credit card tokens securely between both systems.
- Reduce redundant manual entry of data in multiple systems.
- Instantly notify customers whenever their order is confirmed and shipped.

KENSIUM

Strengthen Your Magento Business Processes by Integrating with Acumatica

- Tight consolidation of product, customer and order data lets you pack and ship efficiently.
- All sales channels are managed through one back-end system: Acumatica
- S3 image support allows you to easily transfer product images from your ERP to your Magento storefront.
- Push sales category data from Acumatica to Magento to build logical site navigation for your customers.

ROBUST SYNCHRONIZATION
